Order:

2013-04-22

Arrived:

2013-04-23

Description of samples:

One side polyurethane coated polyester fabric,

named: "PES SPINNAKER 320".

(for details see page 2)

Delivered:

2013-04-23

Content of request:

Proof of flammability to classify building materials to class B1 "schwerentflammbar" according to DIN 4102-1

Assessment:

The examined product meets the requirements of class B1 for "schwerentflammbare" (not easily flammable) building materials according to DIN 4102-1, if used suspended freely or with distance of >40 mm to the same or other plain materials.

(for details see page 5)

Validity of test

report:

2018-04-30

Sampling:

The samples were sent to the laboratory

Remark: If the above-mentioned building material is not used as product acc. to MBO § 2, Abs. 9, Ziffer 1, there is no need for a general building supervisory test report. This test report is not valid if the examined building material is used as product in the meaning of state building prescriptions (MBO § 17, Abs. 3).

This test report does not replace an eventually necessary proof of applicability concerning building supervisory or building laws in the meaning of state building prescriptions. This has to be verified by:

- "allgemeine bauaufsichtliche Zulassung" (general building inspectorate approval) or by
- "allgemeines bauaufsichtliches Pr
 üfzeugnis (general building inspectorate certificate) or by
- "Zustimmung im Einzelfall (exceptional approval).

This test report can serve as a basis for building supervisory procedures for:

- regular building products for the pre scribed proofs of conformity
- non-regular building products for the needed proofs of applicability.
